

◆ QUALITY POLICY ◆

NVD, as a manufacturer of electronic display and touch modules and related components, is committed to developing and maintaining a Quality Management System in accordance with the requirements of ISO 9001 and TS16949. The consistent application of the quality system is a visible demonstration of the company's commitment to the provision of quality products and services, which comply with all aspects of our customers' requirements.

The achievement of high quality and consistency calls for a systematic and disciplined approach by all employees in all activities associated with the delivery of the customer's specific requirements. Our employees have the responsibility and are committed to perform their tasks correctly, defect free, on time, every time.

The company is committed to the ongoing improvement of the quality management system through the establishment and ongoing review of specific measurable quality objectives, and the involvement of all employees in meeting these objectives.

The NVD Quality Manual defines the responsibility of the management organization for the corporate processes. The CEO has ultimate authority and responsibility for the effectiveness of the Quality Management System and is responsible for implementing and maintaining the systems described in this manual and in the associated procedures.

It is part of the company's training program that this policy is understood, implemented and maintained at all levels in the organization. This policy will be reviewed on a regular basis to confirm its continuing suitability in assisting with the achievement of the company's objectives.
