New Vision Display Acquires Multek Display

ROSEVILLE, C.A. -- December 4, 2012 -- New Vision Display (NVD), a global leader in innovative display and touch technologies, announced today the acquisition of Multek Display in Shenzhen, China. With this transaction, NVD expands its current technology portfolio to provide industry leading value and functionality in small and medium-sized display and touch applications for the industrial, consumer, medical and automotive markets. "This acquisition reflects NVD's strategy of expanding and strengthening our position in the fast growing custom display and touch market," said NVD's Chief Executive Officer Jeff Olyniec. "Multek Display offers NVD's customers highly innovative solutions, and we are committed to delivering and meeting their growing needs with efficient and flexible technology solutions." NVD is poised to make significant investments in production capacity and technology to grow the current business in both touch and display solutions. NVD's expertise in integration and rugged design is evident in the new HMI module – a unique combination of different display and projected capacitive touch sensors targeted at the appliance and automotive markets. "With a business now focused solely on display and touch solutions, our customers will see a more flexible, faster moving display supplier" said Hayden Zhou, NVD's Chief Operating Officer.
